What is Fotona4D®Men?

Fotona4D®Men is a facial rejuvenation treatment created especially for men. It helps men to maintain a **young, fresh** and **healthy** look.

How does it work?

Fotona4D®Men is a series of laser treatments that are applied both to the face and to the inside of the oral cavity. It uses two laser wavelengths and 3 different treatment modes to rejuvenate and tighten male skin.

Invest in the quality of your skin and turn back time

Key advantages of Fotona4D®Men

- Designed specifically for men
- Immediate freshness and tightness
- More youthful and healthy skin
- No downtime
- No needles or anesthetic
- Natural-looking results

What is the treatment like?

In the beginning you may experience a gradual warming sensation, and after a few minutes there might be some very brief hot sensations in the treatment area, which dissipate quickly. If you select to have a more aggressive treatment, you may experience a day or two of redness.

The treatment is **non-surgical** and **non-invasive**, allowing you to resume your normal daily activities immediately after the treatment. It lasts 30-45 minutes.
