Building and maintaining muscle definition in the body is a critical factor in not only one's self-confidence, but also in making sure our bodies remain healthy throughout our lives. Age related muscle loss can make daily activities more challenging and impact our overall quality of life.

## BECAUSE SLOWING DOWN IS NOT AN OPTION

Child birth and the natural aging process can cause significant changes to a women's body. Weakening of the core muscles, bladder leakage, and weight gain can significantly impact our confidence and overall quality of life

IntimaWave™ offers you a 3-in-1 treatment targeting the abdomen, back, and core muscles to help improve the look, feel, and function of these areas.

### HOW IT WORKS

IntimaWave uses High Intensity Tesla Magnetic Stimulation (HITS™) to increase strength, endurance and definition of treatment areas.

The treatment is performed fully clothed. One treatment lasts between 20 to 30 minutes with patients resuming daily activities immediately after.
