

## IV Vitamin Infusions by Farsk

# FÄRSK

# Energy

## ENERGIZE | REGENERATE | STRENGTHEN

### Assists in treatment of

- Lethargy
- Exhaustion
- Slow metabolism and undesired weight gain
- Seasonal blues
- Insomnia
- Vitamin B deficiencies

- This IV drip was developed to provide the necessary vitamins and minerals for adequate energy levels.
- The key components in this solution are dextrose combined with B vitamins and magnesium, all of which are crucial in the production of adenosine triphosphate (ATP), the cellular energy source.
- IV Energy improves the levels of vitamins and minerals which help regenerate cells and correct deficiencies such as: anemia, insomnia, electrolyte imbalances, stress and thyroid conditions, strengthening the body's ability to take on daily challenges.
