FÄRSK

High C

REPAIR | PROTECT | GROW

Assists in treatment of

- Lethargy
- Fatigue
- Malaise
- Weight Loss
- Anorexia
- Diarrhea
- Hypertension

- This IV drip was created to boost and support your immune system, protect against pathogens, reduce the risk of infection and illness.
- Research shows that High C drip can aid in collagen production that heals wounds, cuts and scrapes faster. This is also because Vit C is an antioxidant that helps repair tissue and damage caused by inflammation.
- Research also shows that High C drip may be used to help reduce fatigue.
- Vit C also makes it easier to absorb iron to fight anemia
- Helps fight cancer-causing free radicals
